

SWACHHTA STARS – EK KADAM SWACHHTA KI AUR

‘Swachhta Stars’ is a ranking parameter developed to promote a healthy competition amongst institutions of society to take active measures to promote Swachhta not just in their own premises but also in a 50 meter catchment area. The parameters have been developed for schools; hospitals; and hotels and restaurants.

Participation in the survey is purely voluntary. Participants are required to undertake a self assessment in the Survey Sheet developed for this purpose and return it by 13th December 2017. Thereafter, teams would visit and physically verify the contents of the self assessment form.

Points have been developed for segments such as Drinking Water, Sanitation, Waste Management, Cleanliness of Infrastructure, Kitchen, Staff, User feedback and Eco friendliness. Maximum points that can be obtained are 100 points . Star ranking is based on points obtained and is described as follows:

Star 1 : 0-20

Star 2 :20- 40

Star 3: 40-60

Star 4: 60-80

Star 5: 80-100

The aim of the Survey is not to judge on the kind of facilities provided but the health, hygiene and eco friendliness of whatever facilities are being provided. In case, any of the questions are not applicable then the participant can mark that question as N/A. Marks will be adjusted for those questions.

For any clarifications on the self assessment participants can contact us by email on: ss2018bti@gmail.com or

Visit Room 219 in Municipal Corporation Bathinda.
